

Harry's Fruit Sundaes

Create these fruit sundaes from either shop bought, or home grown fruit.

What you will need:

- Selection of fruits
- Glass or dish
- Ice cream/cream
- Crumbled biscuit
- Chopping board and suitable knife
- Spoon

Method:

1. Cut up the fruit or support your child to cut the fruit into small chunks. This is a great way to develop hand eye coordination.
2. Add one scoop of ice cream, or some cream, to your glass or dish.
3. Add the fruit on top. Talk about which fruits are being added to introduce language or even organise them by colour to extend the activity.
4. Sprinkle on some crumbled biscuit to give it some crunch.
5. Serve and eat immediately.
